KHUSHI CHAMPANERI

AI/ML ENGINEER | AWS CLOUD

Ahmedabad, Gujarat, India • 7434903982 • khushichampaneri0@gmail.com

PROFESSIONAL SUMMARY

Final-year B.Tech student specializing in Artificial Intelligence and Machine Learning at Silver Oak University, holding an exceptional CGPA of 9.78/10. Proven track record across three industry internships developing, deploying, and optimizing end-to-end AI/ML models and scalable cloud infrastructure. Seeking a professional role as an AI/ML Engineer, Software Engineer, or AWS Cloud Engineer to apply practical expertise in MLOps, deep learning, and serverless computing.

TECHNICAL SKILLS

Programming Languages: Python, C++, PHP, Java

Web Technologies: HTML, CSS, Flask

Database Systems: MySQL

AI / Machine Learning: Machine Learning, Deep Learning, NLP, Computer Vision, OpenCV

Cloud Computing (AWS): IAM, EC2, S3, Lambda, RDS, API Gateway, CloudWatch

Core Competencies: MLOps, Backend Development, Frontend Development, Cloud Deployment

INTERNSHIP EXPERIENCE

AxisRay — Ahmedabad, India

MLOps Intern — *June 2025 – Present*

- Streamlined machine learning deployment by building and maintaining automated model pipelines using Python and Flask.
- Configured AWS CloudWatch monitoring systems and automated alerts to track system health and process metrics in real-time.
- Collaborated with data science teams to transition models from development scripts into robust, production-ready APIs.

Technologies: Python, Flask, MLOps, AWS CloudWatch, Linux

SoftVan — Ahmedabad, India

AWS Cloud Intern — *January 2025 – May 2025*

- Provisioned and managed secure cloud infrastructure components including EC2 instances, S3 buckets, and IAM roles following industry best practices.
- Developed serverless backend components using AWS Lambda and API Gateway, minimizing server maintenance overhead.
- Monitored database connectivity and configurations with Amazon RDS, improving query reliability for dependent services.

Technologies: AWS (IAM, EC2, S3, Lambda, RDS, API Gateway)

Tuskar AI — Ahmedabad, India

Machine Learning / Deep Learning Intern — *September 2024 – December 2024*

- Developed and trained deep learning models for Computer Vision and Natural Language Processing applications.
- Implemented image preprocessing and augmentation workflows using OpenCV, increasing baseline model accuracy by 8%.
- Assisted in deploying finalized models onto cloud testing environments and collected inference performance data.

Technologies: Python, OpenCV, Machine Learning, Deep Learning, NLP, Computer Vision

PROJECTS

Real-Time Traffic Management System — 2025

- **Objective:** Build an intelligent vision system to analyze live traffic density and optimize vehicle flow at intersections.
- **Key Contribution:** Designed vehicle detection algorithms using OpenCV and developed a light Flask backend to handle streaming data.

- **Outcome:** Deployed the complete pipeline on an AWS EC2 instance, achieving a simulated 20% reduction in vehicle wait times.

Technologies: Python, OpenCV, Deep Learning, Flask, AWS EC2

EDUCATION

B.Tech in Artificial Intelligence & Machine Learning — Silver Oak University, Ahmedabad — 2023 – 2027

Current CGPA: 9.71 / 10

Higher Secondary Certificate (HSC) — Gujarat Board — 2023

Performance: 74 Percentile

Secondary School Certificate (SSC) — Gujarat Board — 2021

Performance: 95%

KEY ACHIEVEMENTS

- Completed three industry-focused engineering internships across AI/ML, MLOps, and Cloud domains prior to graduation.
- Successfully engineered and deployed multiple end-to-end AI and cloud-native applications from scratch.
- Gained robust hands-on experience in scalable infrastructure deployment, continuous model monitoring, and serverless workflows.

CAREER OBJECTIVE

Highly motivated engineering student looking for opportunities as an **AI/ML Engineer, Software Engineer, or AWS Cloud Engineer**. Ready to leverage a strong academic foundation and practical, multi-internship experience to build and scale production-ready applications.
